

Vacancy:

Assistant/associate professor in Biostatistics/medical Statistics
Maastricht University

Maastricht University is the youngest university of the Netherlands and currently has about 13100 students and 3500 employees. Research and education is organised primarily on the basis of faculties and schools, including Arts and Social Sciences, Business and Economics, Health, Medicine and Life Sciences, Humanities, Knowledge Engineering, Governance, Psychology and Neuroscience, Law and University College.

The Department Methodology and Statistics of Maastricht University invites applications for an assistant or associate professorship:

Assistant or associate professor in Biostatistics/Medical Statistics
(Tenure track, full time, f/m)

Tasks:

The Department Methodology and Statistics has about 20 staff members and offers a broad spectrum of bachelor's, master's and doctoral degree courses in statistics and methodology to students in Health, Medicine, Life Sciences and Psychology. The Department has active research programs in the design and analysis of health sciences studies focusing on random effects and multilevel models. The professor will be primarily responsible for education, research and statistical consultation in the faculty Health, Medicine and Life Sciences.

Requirements:

We are looking for applicants who have a PhD in Biostatistics or any other field of statistics, such as biometrics, econometrics, and psychometrics with an excellent research track in design and statistical analysis of medical and health science studies and publications in international journals. We expect the candidate to be committed to excellent and innovative teaching. Applications from women and minorities are encouraged.

Salary:

We offer in principle a full time tenure position with a review after two years. Depending on the qualifications of the candidate salary amounts to a maximum of €1970 per month (salary scale 12, assistant professor) or €920 per month (salary scale 14, associate professor).

Information and application:

Information can be obtained from prof. dr. Martijn P.F. Berger, Chair of the Department methodology and Statistics, Maastricht University, P.O. Box, 616, 6200 MD Maastricht, The Netherlands. E-mail: Martijn.Berger@stat.unimaas.nl
Please send your application with CV to Prof. dr. Martijn P.F. Berger.

Review of applications will continue until the position is filled.
